

*Your guide to*  
**Orthodontics**

**Complete Orthodontic Care - Under One Roof**

DENTAL HOUSE • CASTLEKNOCK ORTHODONTICS • PEARLS DENTAL • PLAZA HEALTH

## What is **Orthodontics**?

Orthodontics is the specialised treatment that gently guides your teeth into their correct position which means you can straighten uneven, misaligned, crooked and prominent teeth and have the smile you have always dreamed of!

### **The benefits of Orthodontic Treatment include:**

The beautiful teeth and smile that you always wanted and will have for the rest of your life.

Straight teeth and healthy gums that are easier to clean and more likely to last a life time.

Healthy jaw joints which can help to reduce headaches, migraines, jaw and neck pain.

*An Attractive Smile is a Wonderful Asset*

## What is an **Orthodontist**?

An orthodontist is a qualified dentist who has completed a further 3 years full time training on a specialist training programme that is recognised by the Dental Council of Ireland.

## Meet our Specialist Orthodontist - **Dr. Ronan Perry**

**Master of Orthodontics**  
**Master of Lingual Orthodontics**

Dr Ronan Perry is an honours graduate from the Dental School at Trinity College Dublin. Ronan has worked as a general dentist in Dublin and one of the UK's leading teaching hospitals before setting up his first practice.

Ronan completed a three year masters degree in the speciality of Orthodontics in Trinity College Dublin. In addition he was awarded a masters degree in Orthodontics from the Royal College of Surgeons in Edinburgh.

He has a special interest in lingual orthodontics and is one of Ireland's leading practitioners of lingual orthodontics with over 200 lingual orthodontic cases. He obtained an MSc in Lingual Orthodontics at the University of Hannover Medical School in Germany.

He is a registered specialist and President 2018-2020 of the Orthodontic Society of Ireland and is currently a member of the Faculty of Dentistry at the Royal College of Surgeons, Ireland.

**He is available to see patients at any one of his four clinics:**

## What are your **Treatment Options?**

We provide a range of braces that are virtually invisible so that no one will know that you are having treatment.

### Traditional Metal Braces

These have progressed significantly since the early days and are now much lighter than before. They are made from a high-grade stainless steel and have metal brackets that are attached to each tooth using a type of cement.

The brackets are linked to each other with a thin archwire which puts pressure on the teeth and guides them slowly into the correct position.

## Ceramic Braces

Ceramic Braces work in the same way as traditional braces, but the brackets are made from a clear, transparent ceramic material.

The braces are less visible to others, which makes them a popular choice for adults who need orthodontic treatment.

## Invisalign

The Invisalign system uses a series of removable and clear aligners that are custom moulded to fit you.

The virtually invisible aligners gradually reposition your teeth into their correct position. You wear a new set of aligners for 2 weeks at a time until your treatment is complete.

## Lingual Braces

Lingual Braces are completely invisible and the only one who knows that you are having orthodontic treatment is you.

These braces are made of metal but are fitted on the back of your teeth instead of the front.

They are 100% customised to follow the contours of your teeth for comfort and performance.

*It is never too late to have the smile  
you've always wanted.*

## What to Expect - **Your Journey with Us**

At your first appointment, you will meet our Treatment Co-ordinator (TCO) who is there to get to know your expectations and listen to your requirements. Your TCO will introduce you to Dr. Ronan Perry who will tailor a treatment plan specifically for you.

Within 48 hours of your initial consultation we will send your individualised treatment plan to study in the comfort of your home. Your TCO is at hand to answer any further questions you may have and will contact you over the coming days at a time best suited to you.

When you are ready to commence treatment, we will arrange a second appointment where we may take any required clinical recordings such as X-rays, photographs or mouldings of your teeth. We will then begin your treatment, bringing you closer to your desired smile.

*Fixing Smiles... Changing Lives!*

## What our Patients have to say - **Our Happy Patients**

### **Aidan, treated by Dr Ronan Perry**

*I had a big problem at the front of my mouth as there were 3 teeth in the place where the two front teeth should have been. This made me very very self-conscious and I didn't like to smile or laugh so it wasn't good for my self-esteem and personal happiness.*

*When Dr Perry told me that it would take 2 years and that I would have a nice smile at the end of that time I was shocked. I assumed I wouldn't ever have a nice smile and was only looking for an improvement on my current situation. I also needed a lot of other work and because the team were both kind and extremely good at their job, it was very soon any fears I had left about going to the dentist were gone.*

*I'm now finished my treatment and Dr Perry was right, I do have a smile I am very happy about. I would and already have recommended friends to Dr Perry and I am 100% positive they too will be very impressed with the results and the staff.*

### **Evgeniya, treated by Dr Ronan Perry**

*I chose Dental House for my treatment because I wanted lingual braces and Dr Perry is one of the best orthodontists in Dublin for this type of treatment.*

*I found my initial consultation to be very good and the treatment was very high quality. I'm very happy with the treatment and the end result.*

### **Elaine, treated by Dr Ronan Perry**

*My two daughters are attending with Dr Perry for orthodontic treatment. I myself had undergone Invisalign treatment with another practice but was unhappy with the end result.*

*After a consultation with Ronan and Natalia, I decided to re-start my Invisalign with him. Four months later, I am finished with my treatment and my teeth are amazing. Natalia and the team are amazing. Apart from being very professional, they are lovely friendly people.*

*My teeth are nicer than I could have ever imagined! I would recommend him and the team to anyone.*

*Thank you guys!*

### **Sindy, treated by Dr Ronan Perry**

*I chose DentalHouse due to its central location, the very professional and transparent assessment done and the fact that Dr Ronan is part of the Orthodontic Society as a long standing active member. It's been more than a year and I've been well cared for even able to get same day appointments when needed.*

*I'm very happy with the end result and also with the timeline which is what I was told to expect. I feel all staff really cares about answering my questions and helped calm my nerves as one of the more nervous dentist patients! I'd definitely recommend the practice and team!*

# We offer a Full Range of Dental Services to keep you Smiling!

## Dental Implants

The benefit of using implants is that they don't rely on neighbouring teeth for support. They are permanent and stable.

## General Dentistry

We welcome patients of all ages as you are never too young (or old!) to start looking after your teeth.

## Cosmetic Dentistry

The desire for a beautiful smile is greater than ever, there are many exciting options allowing you to improve your smile.

## Emergency Dental

We provide a range of emergency dental services to help you with: bleeding, infection, swelling, pain and trauma injury.
